

Perfecting the Air

INDOOR SMART ECO SYSTEM™

Transform Your Space
Breathe Fresh, Live Green with Daikin!

The Indoor Smart Eco System enhances indoor air quality by reducing carbon dioxide (CO₂), formaldehyde, and total volatile organic compounds (TVOCs). It also helps reduce stress and boosts mood with live plants, while allowing for the cultivation of fresh pesticide-free and worry-free produce in indoor spaces. This promotes healthy eating, supports sustainable living, and creates a more pleasant and inspiring environment.

RECOMMENDED FOR

COMMERCIAL
Shopping Centres,
Office Buildings, Shops

EDUCATIONAL
Childcares, Tertiary schools,
Secondary School,
Learning Institutes

HEALTHCARE
Hospitals, Clinics,
Dental

ELDERCARE
Nursing Homes

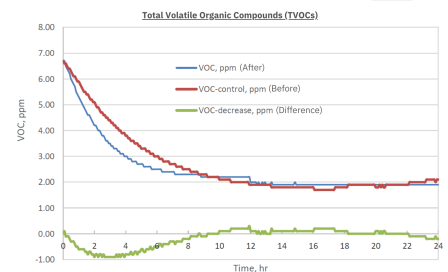

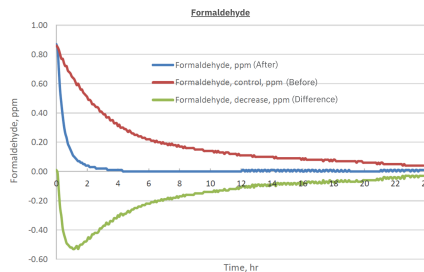

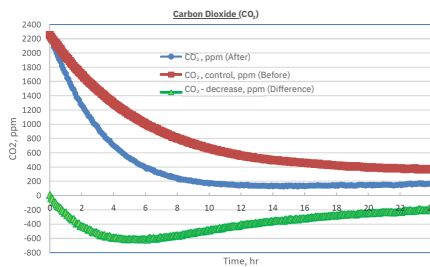

BENEFITS

How Do Plants Improve Indoor Air Quality?

Plants absorb pollutants, increase oxygen levels, and reduce CO₂, significantly enhancing indoor air quality (IAQ). They filter harmful toxins and help regulate humidity, creating a more balanced atmosphere and promoting overall well-being.

Effects of Indoor Smart Eco System Reduces the level of CO₂, Formaldehyde & TVOC

IMPROVE INDOOR AIR QUALITY

The Indoor Smart Eco System helps filter out pollutants, purify the air, and reduce CO₂ concentration, creating a cleaner and healthier atmosphere.

HEALTHIER WORK ENVIRONMENT

The presence of live plants reduces stress, boosts mood, and enhances well-being, fostering a more pleasant and productive work environment.

SUSTAINABLE LIVING

The Indoor Smart Eco System allows us to grow fresh produce in the premises, enabling occupants to take home harvest and promote healthy and sustainable eating habits. Each harvest produces 6-8kg of vegetables.

ENHANCED AESTHETIC APPEAL

The Indoor Smart Eco System transforms our space into a vibrant, green area, making it more inviting and inspiring for occupants.

DID YOU KNOW?

Singapore's estimated vegetable demand in 2020 was about 91,400 metric tonnes.

More than 40% (36,560 metric tonnes) of vegetables are wasted during transportation due to the loss of water and nutrients.

Why choose us to purify your air?

- Experienced and knowledgeable team of professionals
- Use of high-quality materials and equipment
- Attention to detail and commitment to customer satisfaction
- Competitive pricing and flexible payment options
- Fully licensed and insured for your peace of mind.
- Don't settle for a dull or outdated indoor space - choose us to transform your environment!
